2008 PS101 MEDIA CENTER 2009

Welcome to the *PS101 Media Center!*

During the month of *February*, grades 3-6 will work on Math test prep skills using our SMART Boards, desktops, and laptops. Students will take a Math Scantron Performance Test early in the month and then work on skills based on the results. After the NYS Math tests, they work on self-guided projects with Renzulli Learning, a web-based enrichment program.

## WHAT IS A TEMPLATE?

A template is a framework for web pages and documents. Templates for web pages work much like templates in Microsoft Word, or any other word processing application. Think of a template as a starting point for your pages. Web pages and documents are pre-designed for you...all you have to do is edit the template by adding your own text, pictures, etc. Templates can be found in Microsoft Publisher, Word, Excel, and PowerPoint by using the Microsoft website: <http://office.microsoft.com/en-us>.
