2009 PS101 MEDIA CENTER 2010

Welcome back to the *PS101 Media Center!*

During the month of *November*, grades 2 & 3 will continue to work on general computer basics (desktop, mouse, keyboard, icons). Grade 3 will also be introduced to Microsoft Word. All testing grades (grades 3-6) will be tested in MATH using Scantron Performance Series. Teachers can then use the information from the tests for differentiated instruction. As always, we will continue to work on keyboarding skills.

WHAT IS MICROSOFT WORD?

Microsoft Word is a word processing software program that allows users to create documents in a variety of ways.

Fun Fact: Microsoft Word was first released in 1989 for a cost of \$500!
